What this focused reading is saying

This report stays with the selected method instead of mixing rooms. It surfaces the main meaning first, then the proof that matters.

SIGNATURE

Signature Predicta preview

Signature Predicta can be added after the user uploads, draws, or confirms a recent natural signature. It stays separate from Kundli, KP, Nadi, and Numerology unless a future approved synthesis report explicitly says so.

- Add one clear signature or confirm visible traits such as pressure, slant, baseline, size, spacing, and legibility.
- The reading is reflective guidance about self-expression, not identity verification or handwriting forensics.
- Predicta does not store your signature image. It stays only in this session so we can prepare your reading. If you close this tab or leave the session, you may need to re-upload or re-draw it.
- What this can and cannot tell you: it can reflect visible expression cues; it cannot verify identity, diagnose, predict, or provide forensic proof.

CORE PROOF

- Add a signature image, drawing, or confirmed visual traits to prepare a reading.
- Signature analysis is for reflection and self-understanding only.
- SIGNATURE: Add a signature image, drawing, or confirmed visual traits to prepare a reading.

Additional chart-backed notes

These extra notes stay at the end so the free report remains readable before it becomes technical.

SCHOOL BOUNDARY

Signature report boundary and readiness

Signature Predicta reports use confirmed signature traits only: size, slant, pressure, baseline, spacing, legibility, rhythm, underline/flourish, consistency, self-expression summary, and improvement guidance. They do not include Numerology or Vedic synthesis unless a future synthesis lane explicitly says so.

- Readiness: Ready only when a signature sample or confirmed manual-observation state exists.
- Free/basic: Free Signature gives reflective visible-trait insight with privacy and safety framing.
- Premium/paid: Premium Signature adds multi-sample comparison, before/after guidance, and a signature refinement plan.
- Active profile: Bhaumik Mehta.

SUPPORTING PROOF

The free report is meant to leave you with meaningful insight, clear guidance, and enough chart context to understand why Predicta is saying what it is saying.

FUN CHART NOTE

Because you were born at Bhaumik Mehta, Predicta keeps the chart in a sunrise hue to echo first-light momentum and beginnings.

Predicta keeps the same time-of-day chart atmosphere in the PDF so the document still feels like your Kundli, not like a disconnected export.
