CHARTS

The PDF does not switch chart vocabulary

The PDF keeps the same sign, planet, degree, and status-mark language as the app so the charts still feel like your Kundli.

PREMIUM DEPTH

Depth stays, clutter goes

Premium keeps the deeper synthesis and timing, but the layout removes repeated scaffolding before it removes substance.

BOUNDARIES

Keep the trust pages in mind

Use proof pages to support decisions, not to replace context, judgment, or professional help in serious matters.

The charts, in the same language as Predicta

These charts use the same house structure, signs, planets, degrees, status marks, and birth-time theme logic as the real Kundli surfaces. The PDF does not switch to a different chart vocabulary.

SCHOOL BOUNDARY

Signature report boundary and readiness

Signature Predicta reports use confirmed signature traits only: size, slant, pressure, baseline, spacing, legibility, rhythm, underline/flourish, consistency, self-expression summary, and improvement guidance. They do not include Numerology or Vedic synthesis unless a future synthesis lane explicitly says so.

- Readiness: Ready only when a signature sample or confirmed manual-observation state exists.
- Free/basic: Free Signature gives reflective visible-trait insight with privacy and safety framing.
- Premium/paid: Premium Signature adds multi-sample comparison, before/after guidance, and a signature refinement plan.
- Active profile: Bhaumik Mehta.

SUPPORTING PROOF

- Selected report focus: SIGNATURE.
- Signature Predicta reports use confirmed signature traits only: size, slant, pressure, baseline, spacing, legibility, rhythm, underline/flourish, consistency, self-expression summary, and improvement guidance. They do not include Numerology or Vedic synthesis unless a future synthesis lane explicitly says so.
- School boundary: The PDF composition must not import another school lane by default.

Use this dossier as a planning instrument, not as a one-line fate statement.

The premium dossier keeps the full Predicta depth, but it works best when you move from the chart spread into the relevant life spreads and save proof-heavy material for the end.

FUN CHART NOTE

Because you were born at Bhaumik Mehta, Predicta keeps the chart in a sunrise hue to echo first-light momentum and beginnings.

Predicta keeps the same time-of-day chart atmosphere in the PDF so the document still feels like your Kundli, not like a disconnected export.

KEEP IN MIND

- Predictions are evidence-weighted guidance, not guaranteed outcomes.
